EXPERIENCE

DISCOVERY APP GMBH | FRONT-END WEB DEVELOPER

October 2018 – Present | Remote Work

- Working remotely as a front-end web developer on a product named DiscoEat, using Vuejs and other tools and libraries like Bootstrap and Webpack.

TINTASH | FRONT-END WEB DEVELOPER

September 2017 – September 2018 | Lahore, Pakistan

- Worked as a front-end web developer with Reactjs and a variety of related tools and libraries.

BUZZBLARE | FRONT-END WEB DEVELOPER

July 2016 – Aug 2017 | Lahore, Pakistan

- Worked as a Front-End developer using modern web development framework i.e. React and Redux to build interactive web apps.

PROJECTS

DISCOEAT Oct 2018 – Present | Discovery App GmbH

An app to book tables at restaurants in Germany. It also provides discounts. I am currently working on the front-end part using Vuejs and other related tools and libraries.

DONACO Aug 2018 – Sep 2018

Donaco is an Imperial College London based startup that aims to facilitate online donations.

ALKANZA WEB Oct 2017 – Mar 2018 | Tintash, Lahore.

A fin-tech web app. I worked on its front-end side using Reactjs and Redux.

CHATKOO July 2017 | BuzzBlare, Lahore.

Chatkoo integrates multiple messaging platforms in a single place. I worked on some specific modules of the front-end side using Reactjs and Redux.

MOBERRIES Jul 2016 – May 2017 | BuzzBlare, Lahore.

MoBerries is a revolutionized form of old-fashioned recruitment business. I have worked on its admin panel's front-end using Reactjs and Redux along with Material-UI for an amazing look and feel.

PLAYVEN Jul 2016 – Nov 2016 | BuzzBlare, Lahore.

Playven is the easiest way to find your nearest sports venues and book a court. I worked on Reactjs and Redux version of this app.

OPTICAL DICTIONARY & VOCABULARY TEACHER Aug 2015 – June 2016 | FAST-NUCES, Lahore.

This Mobile App provides a user with the ease of querying a dictionary. The user just has to focus the camera of his/her smart-phone over the word encountered and the application will show its' meaning. I worked on its AI part, implementing an algorithm to classify letters.
