## 1 Proposed Thesis Title and Type

**Proposed Thesis Title:** "Insert your proposed title here, This is a working title and can be changed. (Max 15 words)".

**Proposed Thesis Type:** Thesis Type.

## 2 Proposed Supervisory Team and Their Credentials

Describe the expertise of your supervisors and their roles in your research. (Max 50 words per supervisor)

**Supervisor 1** is x with the school of y.

**Supervisor 2** is x with the school of y.

**Supervisor 3** is x with the school of y.

**Supervisor 4** is x with the school of y.

## **3 Background and Literature Review**

### **3.1 Introductory Statement**

Provide a brief introduction of your research focus and its intended contribution to knowledge.

### **3.2 Literature Review**

Summarize and critically analyze the most relevant literature. Discuss the gap in knowledge and how your research addresses it.

### **3.3 Research Problem**

State your research problem, key research questions, hypotheses, or issues you will address.

## **4 Program and Design of the Research Investigation**

### **4.1 Objectives, Methodology, and Research Plan**

Describe the objectives, methodology, and the design of your research investigation.

### **4.2 Resources and Funding Required**

Detail the resources, funding, and technical support required for your research.

### **4.3 Individual Contribution to the Research Team**

Explain your contribution if you are part of a larger research project.

### **4.4 Timeline for Completion**

Provide a timeline for completing your research.

## **5 References**

Include a reference list here. Make sure it is formatted according to your discipline's guidelines.

## **6 Appendix**

### **6.1 Mandatory Training**

Include details about the required training, such as the Research Integrity Online (RIO) module.

### **6.2 Coursework**

Mention any coursework you are expected to complete as part of your research training.
